Pronunciation	Poor	Hardly detectable	General	Advanced pronunciation

SUGGESTIONS

Fluency and Coherence	# Reduce fillers such as "umm", "you know" and long pauses. Self-correct less; keep the flow moving forward.
Grammatical range and accuracy	Revise subject-verb agreement in present and past tense. Use a mix of tenses — not only simple present.
Lexical resources	Learn collocations rather than isolated words. Practise paraphrasing so you avoid repeating the question.
Pronunciation	Work on word stress in longer words (com-FOR-table). Record yourself daily and compare with a native model.
Additional Comments	Overall a promising performance — keep practising daily. Confidence is improving — maintain the momentum.
